

**Project Title:**

**LANDSCAPE EVALUATION OF DAVID AUSTIN ENGLISH ROSES**

**Proposal Description:**

The LSU AgCenter's Hammond Research Station will evaluate the landscape performance (flowering, plant size, flowering cycles, Cercospora leaf spot susceptibility, blackspot susceptibility) of approximately 35 cultivars of David Austin English roses. The study will be replicated and will be conducted from 2014-2016 in the care and maintenance area at the station. The trial will be replicated. Plants will be exposed to typical rose cultural practices with the exception of disease and pest control. Fungicides and insecticides will not be used.

Cultivars to be studied include:

Abraham Darby  
Ambridge Rose  
Benjamin Britten  
Carding Mill  
Charles Darwin  
Charlotte  
Cottage Rose  
Darcey Bussell  
Eglantyne  
Evelyn  
Gertrude Jekyll  
Glamis Castle  
Golden Celebration  
Graham Thomas  
Heritage  
Jude the Obscure  
L. D. Braithwaite

Lady Emma Hamilton  
Litchfield Angel  
Mary Rose  
Molineaux  
Pat Austin  
Portmeirion  
Scepter 'd Isle  
Sharifa Asma  
Sophy's Rose  
Tamora  
Tess of the d'Urbervilles  
The Dark Lady  
The Prince  
Tradescant  
William Shakespeare 2000  
Wincheter Cathedral
